BVMed-Webinar | The Innovative Health Initiative (IHI) under Horizon Europe

BVMed-Webinar |

The Innovative Health Initiative (IHI) under Horizon Europe on 8 September 2021

Overview

On the subject

The Innovative Health Initiative (IHI) is the first European public private partnership open to medtech sector, next to the pharma sector.

IHI will offer significant funding opportunities to mixed consortia composed of large companies, SMEs, academic, hospitals, patients and maybe others to deliver R&I projects along the calls released annually. A total budget of €2.4 billion is allocated over 7 years.

The 1.5-hour information webinar will present the general context of EU funding opportunities under Horizon Europe 2021-2027, the scientific and technological objectives of IHI, the financial and contractual rules of participation and the practical aspects specific to small & medium enterprises (SMEs).

Ample time will be dedicated to Q&A. preliminary information on IHI can be found at: <https://www.euhealth-ppp.org/>

The seminar is held in English!

Target group and objective

The webinar is aimed at BVMed member companies who would like to apply for the Horizon Europe funding programme and for the IHI in particular. The aim is to give an overview of the conditions and practical recommendations on the IHI.
